NEW YORK NY

Technical Experience

HHSYC.org

Redesigned and built a responsive front end using Rails, Bootstrap, and Bourbon for HHSYC, a non-profit organization

- Gems utilized: Devise, Carrierwave, and Will Paginate
- MVC framework, with Admin actions for a dynamic CMS

Wedlog

Developed a blog for sharing ideas, tips and support for weddings using Rails

- Gems utilized: Paperclip, Devise
- RSpec for testing
- Deployed to Amazon Web Services
- Interactive User relationships and Admin CRUD actions

Black Car & Coffee

Created a small business car service

- Built using the Sinatra framework
- Implemented Parallax scrolling
- Incorporated the Mandrill API
